The IDS recites three application serial numbers. Applicant is advised that an application is not prior art. Accordingly, these items on the POL-1449 have been lined through by the examiner.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, lines 2-3 recite two explanatory phrases containing the term "i.e.,". These explanatory phrases render the claims vague and indefinite. The claims are indeterminate of scope because it cannot be ascertained as to whether or not a first and second clamp arm are being positively claimed. Further, it is not understood what is meant by "the other clamping arm" if there are first and second clamping arms. In claim 5, line 2 the use of quotation marks is improper.

Lovrenich is cited to show an analogous clamping device.
